You can free download this files on site: .Join us for a public hearing of the Bexar County Municipal Utility District to consider the District's request for an extension of the new service territory to 600 feet and its request to add 37 customers along the San Pedro Creek in a sensitive area. Attachments The proposed extension would replace the green infrastructure that has been in place on the lake for over 20 years, which has been proven to filter nutrients and reduce algae growth. BEXAR COUNTY, TX - Bexar County, the City of San Antonio, the Bexar County Community College, the San Antonio River Authority and the Bexar County Water Control & Improvement District No. 1 have filed an environmental assessment to allow extensions of water lines to cover an additional seven cities and the addition of 137 individual connections. During the assessment process we've discovered that these additions are made necessary by our rapidly growing population and increasing need for water. With this expansion we are also adding green infrastructure to preserve the natural quality of the area. The planned extension would replace the green infrastructure that has been in place on the lake for over 20 years, which has been proven to filter nutrients and reduce algae growth. "I am thrilled to see a critical step forward in protecting Bexar County's one of the best bodies of water in the state," said Alex Dominguez, DBA. "It is important to us that our natural resources are protected so future generations are able to enjoy them. The stream supports many species that make this area unique." The extension would also help Bexar County meet its water needs and provide a more reliable water supply, especially on hot summer days. It would help protect the San Pedro Creek, one of Bexar County's most valuable assets, and provide an increased supply of clean water, which has previously been in short supply. "If we are going to provide our residents
